2024 Workshop: World Day Planning Meeting

Long title
Incoherent Scatter Working Group
Conveners
Lindsay Goodwin
Marco Milla
Asti Bhatt
Aidan Thayer
lindsay.v.goodwin@njit.edu
Description

Prior to CEDAR, ISR proposals will be solicited for "World Days" (days in which multiple ISRs simultaneously take observations for science needs that are global in nature). This meeting will consist of short discussions of each proposal, group decision-making, and tentative scheduling of the successful requests.

Agenda

13:30-13:40: 2024 ISR Workshop Summary

13:40-14:30: ISR Facility Updates

14:30-15:15: ISR World Day Proposal Review

15:15-15:30: Concluding Discussions

Justification

The URSI Incoherent Scatter Working Group meets to set the ISR World Day program for the following year. The workshop can be timetabled as needed, according to where it would fit best into the schedule.

Related to CEDAR Science Thrusts:
Explore processes related to geospace evolution
Develop observational and instrumentation strategies for geospace system studies
Workshop format
Short Presentations
Round Table Discussion

Keywords
ISRs, global observations
