2016 Workshop: World Day Planning

Long title
Incoherent Scatter Working Group: World Day Planning Meeting
Conveners
Ian McCrea
Emma Spanswick
Mary McCready
Description

Short discussion of each proposal, group decision-making, and tentative scheduling of the successful requests.

Agenda

1. Introduction - Kavanagh
2. Presentation of received proposals
3. open discussion on status of incoherent Scatter Radars for 2017
4. open discussion on proposals (including late proposals, minimising conflicts with other campaigns, overlapping science aims, etc)
5. Selection of dates for 2017 World Days

Justification

The URSI Incoherent Scatter Working Group traditionally meets every year at CEDAR to set the ISR World Day programme for the following year. The workshop can be timetabled as needed, according to where it would fit best into the schedule.
