2012 Workshop: Arecibo Friends

Long title
Arecibo Friends
Conveners
Pedrina T. Santos
Christiano C. Brum
Michael Sulzer
Robert Kerr
Description

The workshop will commence with an update of the Arecibo Observatory’s new management status. A discussion regarding future plans for the Atmospheric Science department will be also presented. Once concluded, we will proceed to reveal the highlights from the previous year of our staff and visiting scientists. Our first speaker will be Mike Sulzer. His topic will be on the new HF facility.

Justification

The workshop will commence with an update of the Arecibo Observatory’s new management status. A discussion regarding future plans for the Atmospheric Science department will be also presented. Once concluded, we will proceed to reveal the highlights from the previous year of our staff and visiting scientists. Our first speaker will be Mike Sulzer. His topic will be on the new HF facility.
